

20.7.2020

**To all suppliers of pharmaceuticals,
surgical and laboratory items**

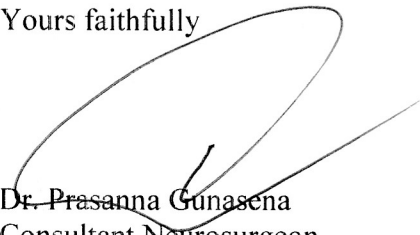

Dear Sir/Madam

**Registration of products with
National Medicines Regulatory Authority**

The State Pharmaceuticals Corporation has been informed by the National Medicines Regulatory Authority that most of the Companies have not taken any steps to register their products with the NMRA.

In future, registration of a product will be strictly compulsory to receive an award. Therefore, we request you to urgently start registering your products with NMRA, as, in the technical evaluation if the registration process has, at least, been started those companies will be given due priority in the selection.

Yours faithfully

Dr. Prasanna Gunasena
Consultant Neurosurgeon
Chairman
State Pharmaceuticals Corporation
